

Section - 1

Industry- Abattoirs.

Typical chain application		Type of chains used
1 - Main carcass conveyor		Light duty, conveyor chains, can be supplied galvanized
2 - Over head conveying bleed Lines		Forged rivetless chains, X458 / 678.
3 - Hide conveyors		Light duty conveyor chains
4 - Bone ash, scraper conveyor		Cast combination "H" Type, or Redler type drag chains
5- Packaging conveyors		Plastic & stainless steel, flat top chains.

Section - 2

Industry- Agricultural.

Typical chain application		Type of chains used
1- Sugar cane mechanical harvesters		Light duty conveying chains.
2- Wheat combined harvesters		Light duty conveying chains (CA) series.
3- Rice harvesters		Light duty conveying chains
4- Fertilizer spreaders		Cast detachable chains.
5- Silo tower unloaders		Steel engineered bushed chains
6- Grain scraper conveyors /elevators.		Scraper & steel bushed type elevator chains

Section - 3

Industry- Airports.

Typical chain application		Type of chains used
1 - Luggage carrying slat conveyor		Bi- planer attachment chain
2- Automated airport trolley retriever systems.		Bi- planer attachment chain
3- Mechanized bakeries		Light duty conveying chains.
4- Automated cutlery & crockery washing m/c's		Light duty conveying chains
5- In-flight trolley handling system		Light duty conveying chains
6- Walkways & escalator chains		133.33mm, 134.5mm & 135.47mm pitch roller chains

Section - 4

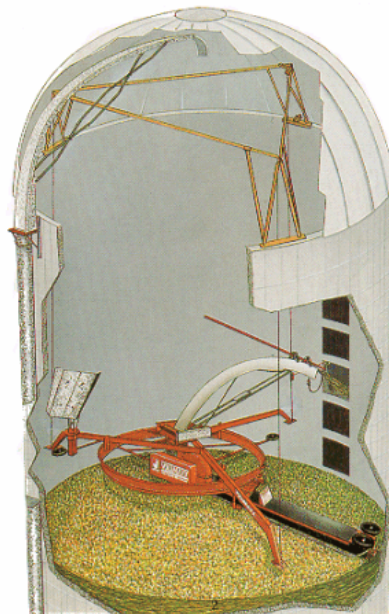

Industry- Aluminium Smelting.

Typical chain application		Type of chains used
1- Bucket elevators		SS111, SS110, SS132, S856, S857.
2- Rolled sections conveyors		Special, top roller chains

Section - 5

Industry- Animal & Poultry Farming.

Typical chain application		Type of chains used
1- Cattle feed, silo tower unloaders		B5024 Cutter chains & B5023 Conveyor chains
2- Poultry feed conveyors		Plastic chicken feed chain
