

Section - 16

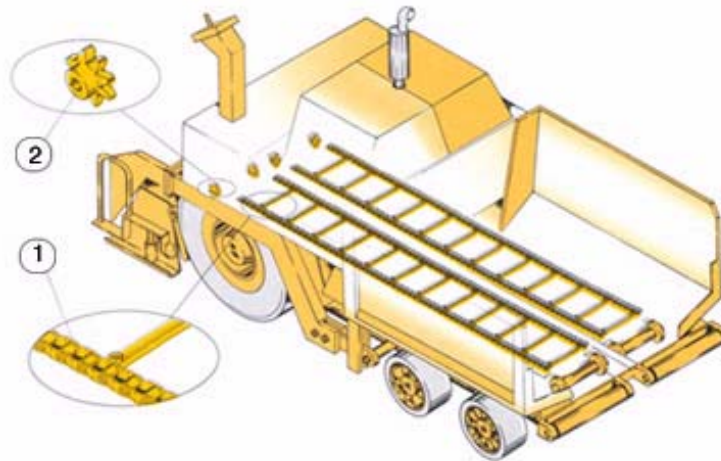

Industry- Coal Handling.

Typical chain application		Type of chains used
1- Feeder breaker conveyors		Steel bushed chain with ext'd pins.
2- Shuttle car conveyor		Steel roller chains with various attachments
3- Under cutters		Roller chains
4- Scoop / Loader		Roller & heavy duty drive chains.
5- Power shovels, draglines & blasthole drilling m/c's		Roller & heavy duty drive chains
6- Wash box / jig washers		Steel bushed chains
7- Crushers, pulverizers & screens		Roller, conveyor & apron chains.

Section - 17

Industry- Construction Plant & Equipment.

Typical chain application		Type of chains used
1 - Excavators, Draglines, Crawler Cranes, Piling M/C,s		2" Pitch to 6" pitch heavy duty rotary drive chains
2- Asphalt Batching Plants		SS102B, SS111, SS110 & 603 bucket elevator chains. 4" & 6" Pitch shell roller conveyor chains. 3067X, API3P, API4P & 1605 AAA drum drive chains.
3- Paver M/C,s		Steel bushed, roller & combination scraper chains
4- Trenchers		Steel roller cutter chains

Section - 18

Industry- Crawler Cranes, Draglines, Excavators, Piling M/c's & Rock Drills.

Typical chain application		Type of chains used
1- Propel / Drive		2" to 6" Pitch, heavy duty rotary drive chains
2 - Crowd / Boom operation.		Transmission, roller chains

Section - 19

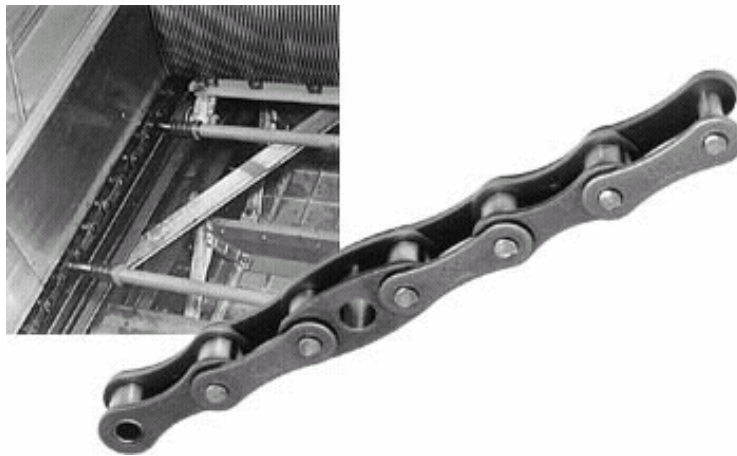

Industry- Dairies.

Typical chain application		Type of chains used
1- Bottle & carton conveying		Plastic & stainless steel mat top chains. 3 ¼” to 7 ½” wide.
2- Crate conveying		Cast malleable iron CC600 Plastic CC600 & CC1400 Chains.
3- In floor conveying		Cast malleable iron CC600 Plastic CC600 & CC1400 Steel multi flex, 3498, 3500 & 3910 chains

Section - 20

Industry- Escalators & Walkways.

Typical chain application		Type of chains used
1- Escalators		Steel chains, with plastic rollers & extended pins. Steel bushed chains, with mid pitch, bushed hole atts.
2- Automatic walkways		Steel chains, with plastic rollers. Sidebars punched & knotted for attachments.
