

Section - 21

Industry- Fabric Dye & Set, Stenter M/c,s.

Typical chain application		Type of chains used
1- Fabric dye stenter machines		Various, special roller attachment chains.

Section - 22

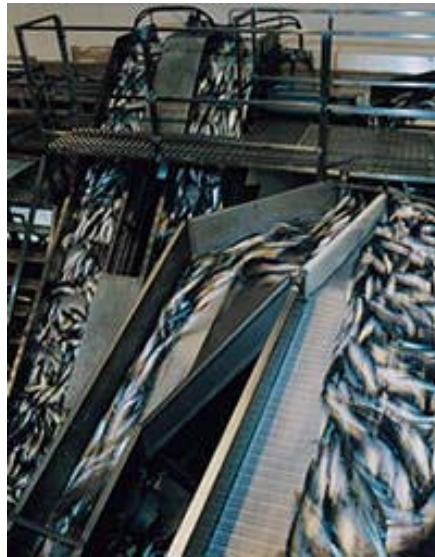

Industry- Fertilizer Plants.

Typical chain application		Type of chains used
1- Drag & scraper conveyors		Cast malleable iron & steel roller chains
2- Bucket elevator chains		567, 578, & 603 Malleable iron chains. SS102B, SS111, SS110, SS132 & S856 Steel Bushed chains.

Section - 23

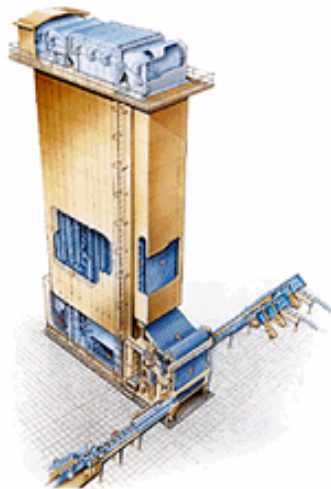

Industry- Fisheries.

Typical chain application		Type of chains used
1- Fish washing conveyors		Steel 4" & 6" Solid / hollow pin chains Varying width plastic mat top chains. Plastic flat top chains
2- Packaging		Plastic flat top chains

Section - 24

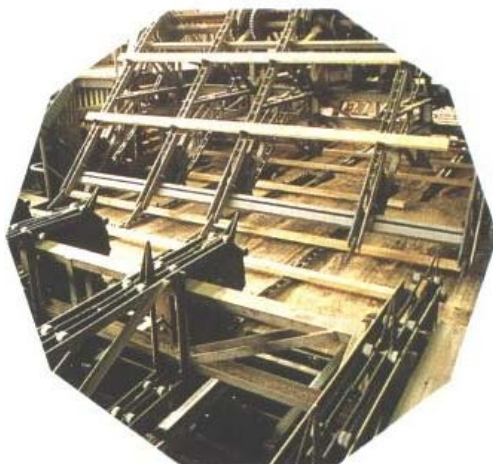

Industry- Food Processing.

Typical chain application		Type of chains used
1- Overhead meat conveyors.		X458 & 678, Forged rivetless chains
2- Overhead poultry conveyors		348 & 458, Forged rivetless chains..
3 - Dehydrator oven, conveyors		Steel, / stainless steel roller chains.
4 - Hydrostatic / steriliser, (can / bottle, cooker) conveyors		Special steel roller chains.
5 - Fruit & vegetable, conveyors & elevators.		Steel / stainless steel roller & bushed chains.
6 - Packing, canning & bottling		Plastic & stainless steel flat top chains. Plastic mat top

Section - 25

Industry- Forestry & Lumber.

Typical chain application		Type of chains used
1 - Log haul & log deck conveyors		Welded steel, engineered roller or bushed /roller, light duty 81X, Forged rivetless chains.
2 - De Barking drum drives		Rotary drive chains.
3 -Refuse & chip conveyors.		Welded steel, combination, engineered roller, or light roller / bushed 81X chains.
4 - Saw conveyors		Welded steel, combination, bushed / roller light duty, 81X chains.
5 - Bucket elevators		SS102B, SS111, SS110 & S132 chains.
