

Section - 26

Industry- Foundries (Iron, Steel, St/Stl, Brass, Aluminium)

Typical chain application		Type of chains used
1 - Bucket elevators.		SS102B, SS111, SS110, SS132, S856, S857, S859 S864 steel bushed chains. 6” to 18” pitch steel bushed & roller chains.
2 - Standard conveyors.		6” to 18” Pitch outboard & flanged roller chain.

Section - 27

Industry- Grain Handling & Maltings.

Typical chain application		Type of chains used
1 - Grain, hops, barley, wheat handling bucket elevators		Combination & all steel, 102B, 111, 110 & 132 chains.
2- Drag & Slat conveyors.		Cast malleable iron and steel roller chains.

Section - 28

Industry- Gas Bottling.

Typical chain application		Type of chains used
1- Bottle filling conveyors		Malleable iron CC600 CC625, SC200 & F801

Section - 29

Industry- Glass Manufacture

Typical chain application		Type of chains used
1 - Bucket elevator		Malleable iron pintle chain Steel bushed chain Steel roller chain
2 - Molten glass conveyors		4" – 8" pitch steel roller chain
3 – Finished product conveyors		St/Stl flat top chains

Section - 30

Industry- Railways / maintenance

Typical chain application		Type of chains used
1 – Ballast conveyor		3”, 4” & 6” pitch solid and hollow pin chains.
